Poison Control and Staying Safe

Do you have Poison Control's number?

1-800-222-1222

The Facts:

- 9 out of 10 poisonings happen at home
- Every day, over 300 children are treated in an ER because of poisoning
- More than half of the calls to Poison Control are for kids under age 5

Safety Tips:

- **Lock them out of reach:** store medicines, batteries, alcohol and household products like bleach in childproof containers, locked cabinets or out of reach
- **Read the label:** follow the dosage directions and warnings on medicines
- **Know the number to call:** Put the Poison Control number in your phone or on your fridge and make sure all caregivers have it
